Virtual Sign In Sheet - please add your name

Doug Duval

We heard about delays associated with the RR crossing.
Please rank the intersections that present the greatest concerns. (1=greatest concern)

Are there other project areas that we should look into further?

Heather Lane and
Quentin Road

fairfield and White
Birch - death trap

Lagoon and Old
McHenry

Milothian and March st

Lagoon and Old
McHenry

Midlothian and March

RR tracks on
Gilmer.turning onto Old
McHenry Rd from
residences north or
south.

Exit from st Matthew to
old mchenry

Midlothian and March

Are there other project areas that we should look into further?

Fairfield and Holmes

Light at Quentin and
old Mchenry

Right turn lane in front
of Hawthorn
GardensSpeedy
drivers think they are
turning on Quentin

Lakeside Dr and OMH
Rd.

people bike on Old
McHenry all the time
and its dangerous
without a path

a path on Old McHenry
would be great too

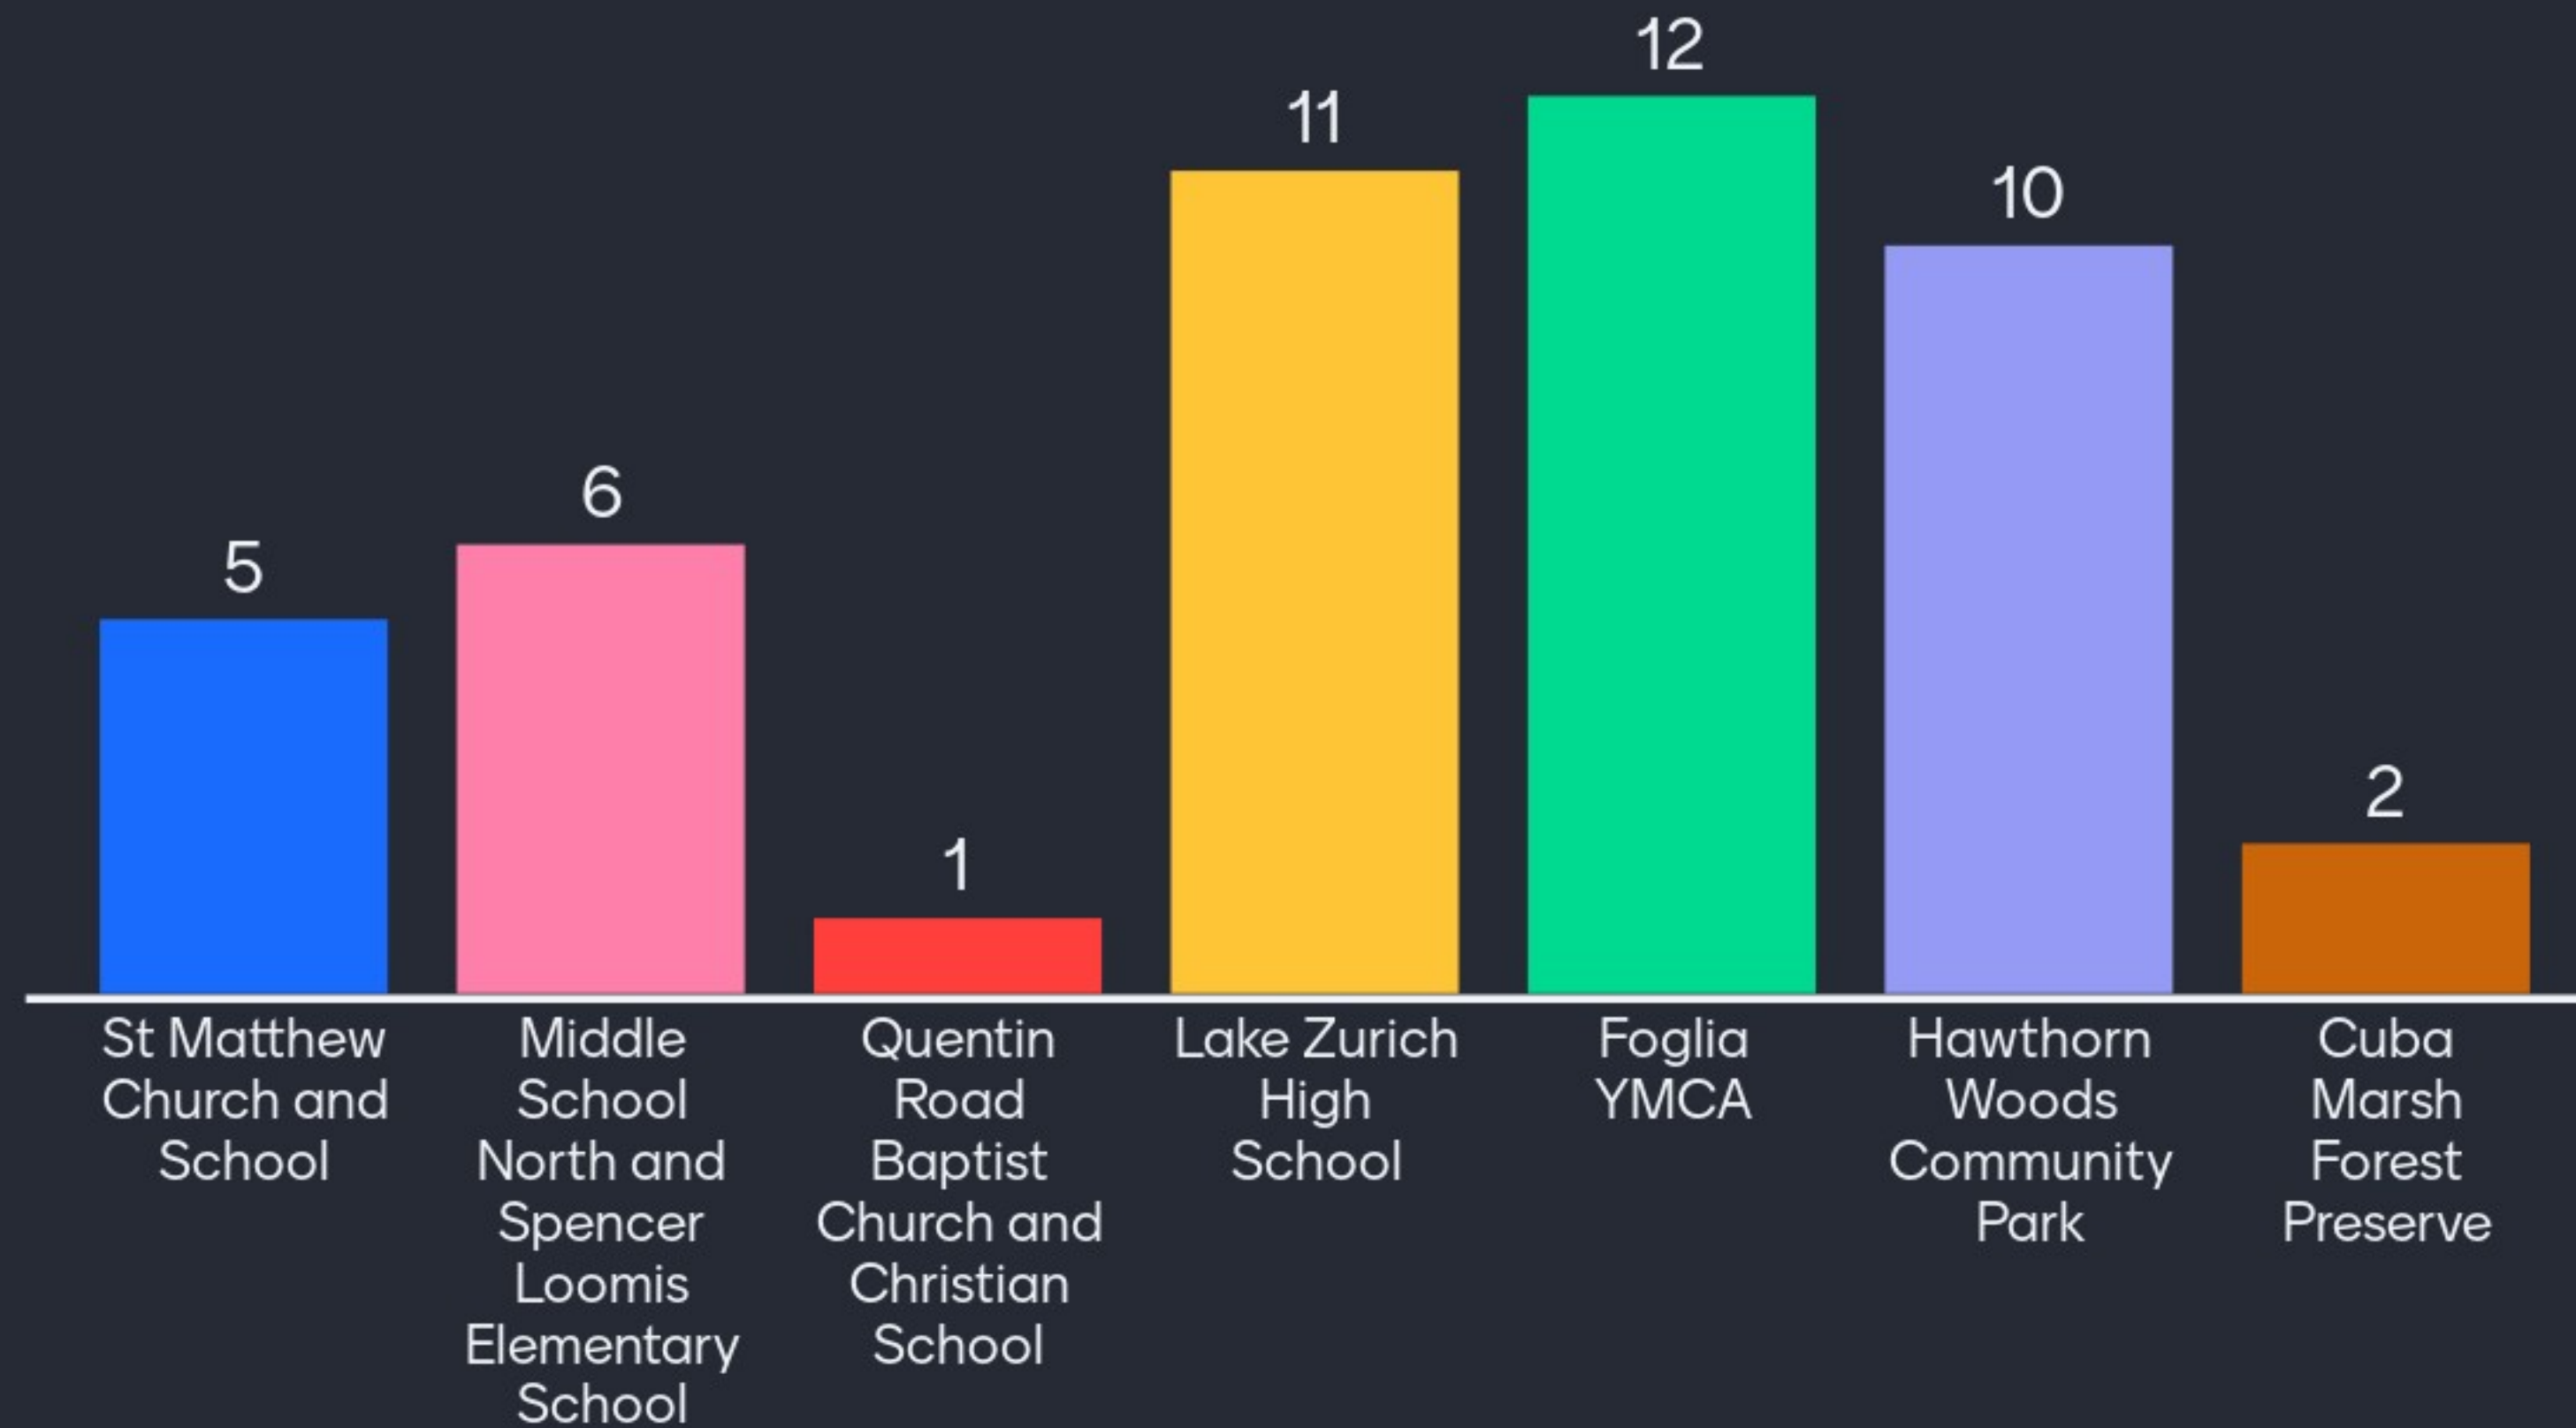

it needs to stay open

I know its a dark skies
area, but lights would
be nice

noise pollution is awful
in that area

We heard about the need to make this corridor more bike / pedestrian friendly. Select your top 3 biking/walking destinations.

Are there other walking/biking destinations that we should review?

- Hawthorne aquatic center
- along quentin rd from 22 to HW community park
- None
- Quentin Rd South to Rt. 22
- I bike and run through the area and dont stop.
- HW Village Hall
- HW aquatic

What characteristics about the corridor are special and should be protected?

natural land scape
 country-rural
 country feel and glavor
 nature
 grade separation
 open space
 fields
 low profile
 trees and nature
 country
 trees
 character
 intentional design
 wildlife
 open spaces
 farming and horses
 rural feel
 not seeing an overpass
 historic buildings
 rural
 forest lake

What other issues / concerns should we look into?

avoid too much train traffic (for us residents)

Longevity of the project

Protecting traffic flow especially while buses are on the road with our students.

Not making another rt, 12

Speed and safety

Noise

Noise considerations with any proposed improvements

Train noise

Future proof

What other issues / concerns should we look into?

Minimalistic solution

How church and Hawthorn Gardens is going to get out on old McHenry

Speed it's already a drag strip

Any connection to existing bike trails, ie millineum path

prefer LESS traffic thru our area

The health of Forest Lake. How water will come into the lake and how will we keep it clean?

Access to business and organizations

Access to local businesses

Reducing bottle necks in the area

What other issues / concerns should we look into?

noise

Water shed

Ensuring train doesn't stop on tracks

Water management

Thank you!
