

WHY WAS A NOISE STUDY COMPLETED?

A noise study is required to comply with State and Federal regulations because Federal Funds are potentially being used for this project. The entire project area was evaluated for the effects of traffic noise on adjacent properties. Based on the analysis, no locations warranted noise mitigation (i.e. noise walls).

REVIEW PROCESS

1

STEP ONE

Noise Analysis:
Determine if there are
potential noise impacts.

2

STEP TWO

Determine if the noise
barrier is feasible and
reasonable.

3

STEP THREE

Vote: Benefited property
owners vote yes or no.

The Traffic Noise Report can be found on the project website.
